Education

Carleton University Full Stack Web Development Certificate Apr.2023-Present

- Intensive 24 week course
- Developed effective communication to collaborate within small and large groups for coding projects
- Gained experience with working in an agile environment

Projects

Arch Studio Website Link: [Arch Studio Website](#)

- Tools: HTML5, CSS3, JavaScript ES6+, LeafletJs, Git
- Built from scratch and developed a multi-page website consisting of 4 pages in all, that are completely responsive across all screen sizes
- Transformed Figma designs into a pixel perfect website

URL Shortener Link: [URL Shortener](#)

- Tools: HTML5, CSS3, JavaScript ES 6+, Server-side API, Git
- Created from nothing, with only design images as point of reference
- Shortens any valid URL, shows errors for invalid URLs and is a responsive web application

Experience

Soccer Line Painter - Elliot Lake, ON

Seasonal 2019

- Adaptable due to the high volume of projects.
- Maintained quality assurance to improve the delivery of final results.
- Collaborated with the community soccer association which helped bolster their engagement.
